 ROMEOVILLE
 LOOK FOR OTHER
 PARTICIPANTS IN YOUR
 AREA!

Mark your calendar...Earth
 Day is April 20th!
 Take the Earth Day quiz at
<http://www.epa.gov/earthday/quiz.htm>
 and test your knowledge!

Did you know... If you replace the five most frequently used lights in your home with energy efficient bulbs you can save up to \$60 a year?

Know your facts:

A hot water faucet that leaks one drop per second can add up to 165 gallons a month. That's more than one person uses in two weeks.

We Add Up...

Energy Hog Hiding Places:

Hiding Place # 1:
 Refrigerators - of all the places in your home, this is a favorite hang-out for Energy Hogs. If your fridge is more than 10 years old, odds are there's an Energy Hog camping out inside. Ask your parents how old your fridge is and if it's time to buy a new one. And make sure they look for the **ENERGY STAR®** label.
 Do you have a second old refrigerator sitting in the garage or somewhere else at home? If so, urge your parents to get rid of it. They can cost \$120 each year on your energy bill.
 For more energy saving facts go to
<http://www.energyhog.org>

Link the Lights for Learning website to your school website for recycling info, energy saving tips, lesson plans, and other handy resources.
