## Did You Know...

The average energy bill to run America's primary and secondary schools is **six billion dollars more** than is spent on textbooks and computers combined

[www.energystar.gov](http://www.energystar.gov)

## "Watts" up?

If every American replaced their 5 most frequently used light bulbs with ENERGY STAR® qualified Compact Fluorescent Light bulbs, we would save \$8 billion each year in energy costs and would prevent the greenhouse gas equivalent to the emissions of nearly 10 million cars!
